

Certificate of Attendance

Engineering training course:

Operation & Configuration of Addressable & Aspiration Fire Detection & Alarm Systems

This is to certify that

Lountzis Andreas

of

KEMETA, ATHENS

has attended an engineering training course on the following Cooper Safety Fire Systems range of equipment:

CF3000/DF6000 + VESDA

Date: **08 / 11 / 2013**

Signed:

Robert Campbell, Managing Director
Cooper Safety Fire Systems

Jim Spowart, Senior Applications Engineer
Cooper Safety Fire Systems

Note: This engineering training course and certificate applies solely to the operational aspects of the product range and specifically excludes the requirements of any applicable 'Code of Practice' guidance and enforcing legislation. Evidence to demonstrate competence within these areas should be attained independently. Whilst training attendance is usually beneficial it is not the same as proof of competence.
